List three ways your family could reduce your collective ecological footprint.

Your Chapter 3 Test in **NEXT CLASS**.

Use this booklet for studying. If you have time, you should review the whole chapter in the textbook (p. 58-85). Do not just read the main body of text, but also read the learning tips, look at all the figures and read their captions. You can check your understanding by mentally answering all of the *CYU* questions and chapter review questions. If you don't know the answer, go back, reread that section and then try again.
