Section 3.2 Pollution of Ecosystems

BEFORE YOU READ:

Look at the headings of Section 3.2. Identify the three types of pollution that you will be studying. How will studying these help you understand how pollution affects ecosystems?

WHILE YOU READ:

Write notes about each type of pollution, using the following chart.

Type of Pollution	Land Pollution	Air Pollution	Water Pollution
How it enters an ecosystem			
How it affects an ecosystem			

AFTER YOU READ:

Think about what you have read and the role you have in the ecosystems around you. Write one specific thing that you can do to reduce each type of pollution.

- Land Pollution: _____
- Air Pollution: _____
- Water Pollution: _____
